

## GOVERNOR'S OFFICE

May 28, 1997

To whom it may concern,

It is not often that I meet, and have the opportunity to work with, many professionals displaying such an enthusiasm and understanding of the state government and educational marketplaces. I have had the pleasure of working with Ms. Mullaly on several occasions and am continually impressed with the caliber and extent of her knowledge. She is well aware of the many initiatives and emerging trends in both the state government and educational marketplace. She and has been able to posture her employer with exceptional skill in capturing a significant portion of the resulting IT opportunities.

Beyond the business savvy she obviously displays it is clear that she is not only motivated by business possibilities, but also largely by the opportunity she affords to the educational communities in general. This type of enthusiasm is a rare and a genuine quality difficult to duplicate.

I strongly recommend Ms. Mullaly for any visible position within the computer industry that allowing her the opportunity to continue her endeavor of marketing IT products and services to both state government and educational marketplace. I look forward to working with her again in the future. If you have any questions, please feel free to contact me at (916)-323-0830.

Best Regards,
